

Kuwait Conformity Assurance Scheme (KUCAS) for State of Kuwait

Activate your business with our smooth and reliable TER/TIR Services

In order to achieve consumer and environment protection from dangerous, sub-standard, counterfeit or low-quality products, the Kuwait Public Authority for Industry (PAI) has implemented the Kuwait Conformity Assurance Scheme (KUCAS). Compliance of products placed in the Kuwaiti market with the applicable standards and technical regulations is verified, thus protecting the domestic industry from unfair competition of non-compliant or low-quality goods.

TÜV Rheinland is an authorized inspection and certification body for the KUCAS Scheme to issue a Technical Evaluation Report (TER) and a Technical Inspection Report (TIR) for a shipment of products as defined in the list of regulated products, based on safety test reports according to Public Authority for Industry (PAI) sanctioned standards.

With our support, you can ensure your products conform to the KUCAS rules and regulations and a smooth customs clearance process assured.
